

PROFESSIONAL DEVELOPMENT WORKSHOPS

DO NOT MISS!

Subject Specific Seminars 2011-2012

SSS Workshops in Berlin and Riga!

Join us for a Mathematics, Humanities or Language B Subject Specific Seminar

The Subject Specific Seminar is a tremendous opportunity for experienced teachers to fully acquaint themselves with changes to a particular subject area. The teaching and learning framework, the guidelines and requirements for implementation, the objectives and criteria, and the assessment tools and task types will be explained and exemplified.

Participants will gain an understanding of the basic philosophy and curricular model of the programme. To this end, the following will be elaborated; mission statement, IB Learner profile, curriculum documents, assessment in IB programmes. Any workshops which **follow** the Subject Specific Seminars will work to the new subject guide; any workshops which **precede** the subject specific seminar will work to the existing guide.

Academic staff from the DP and MYP development teams and/or a member of the curriculum review team will open workshops with a presentation of the changes. They will also be on hand throughout the workshop to answer questions and participate in discussion.
